Lincoln-Way Places 2 In State Track Meet

Track Coach Joe Rodriguez, of Lincoln-Way, took four individuals and a mile relay team to the state meet at Champaign last weekend. Two of the individuals placed in their events and the relay team came within eight-tenths of a second of qualifying for the finals.

Rick Loucks, L-W's nominee for athlete of the year, placed third in the half-mile with a time of 1:53.3. The event was won by Willie Thomas, of Englewood in 1:50.8. Loucks who had won

the 880 in district competition in 1:54.8 set a record for the area. He was beaten out of second place in the state meet Saturday by a tenth of a second.

Dave Merrick, 15-year-old sophomore at Lincoln-Way, finished 5th in the two-mile run at Champaign. He led for three laps and then a side cramp forced him to drop back into the pack. Despite this he was able to put out in the last 100 yards and passed Dan Hartung, of Downer's Grove, to finish

fifth in a time of 9:17.8, a second off the national record for 15-year-olds. In the district meet at Glenbard he set a record for the area with a time of 9:20.2. The event at Champaign was won by Mark Visk, of Palatine in 9:06.1 for a new state record. The previous record for the two-mile in the state was 9:08.6 set last year by Rich Elliott, of Proviso West.

Steve Mangun, the Knight's entry in the mile, finished in 4:27.9.

Name F.W. Guendling To School Board Post

At the regular school board meeting held on Wednesday, May 14, the Mokena Board of Education appointed Frederick W. Guendling to fill the unexpired term created when

Norval Robinson resigned three weeks ago. The unexpired term has one year to run so should Guendling choose to remain on the board he will run for re-el-

ection in April, 1970.

Guendling lives at 19904 Center Street with his wife, Ardity, and four children, Frederick in 7th grade and Jeffrey in 4th grade, both students at Willowcrest School. Brenda age five will attend kindergarten in the fall and Carrie is two years old.

In other business the board approved various textbook adoptions for the 1969-70 school year that Coleman Rogers, Assistant Superintendent recommended. The adoptions and increasing cost of textbooks made it necessary for the board to increase the textbook rental from \$11.50 per student to \$12.00 for the 1969-70 school year.

Supt. Ennis reported to the board that 8th grade graduation would be held on Friday, June 6, 7:30 p.m. at Willowcrest School. Boyd Bucher, county superintendent of schools will be the speaker. Eighty-one students will graduate. This will be the largest class to graduate from the Mokena Schools.

Annual L-W Art Show Will Run Thru June 1

Brookwood Gallery on North Cedar Road in New Lenox will be the setting for the sixth annual art exhibit presented by the art department of Lincoln-Way High School. Opening with an informal tea on Sunday afternoon, May 18, the show will continue thru June 1st.

The selected work for the exhibition has been contributed by students from all art classes, and has been chosen on originality and quality. Examples of scratchboard, plastic etching, experimental drawing, and welded steel sculpture are some of the

unique areas of work shown along with the more conventional medias offered at Lincoln-Way. The Art Department in conjunction with Brookwood Gallery will present this show to acknowledge the creative talents of the high school art students.

The 40 pieces of creative work will be displayed among the rest of the professional work currently on display in the gallery. Many of these selections have won awards in other Art shows, combining to make this one of the better shows presented by Lincoln-Way. Gallery hours are daily from 9 to 5 p.m., 9 to 9 Friday, Sundays 12 to 5 p.m., and closed at noon on Wednesday.

Give Permanent Numbers To Will Co. Real Estate

Tax bills this year will not have an abbreviated property or lot description but will carry the Permanent Real Estate Tax Index Number (Permanent Number), according to Will County Treasurer Clarence Lipman.

"The purpose of the new system," Lipman explained, is to simplify real estate description and to better utilize the county's modern electronic data processing equipment for tax assessment, collection and distribution."

The Permanent Number replaces the legal description identifying the property being taxed. A sample illustration is on back of

each bill.

Lipman said tax bills will have a numerical identification sequence, which is the Permanent Number for the parcel being taxed. Each township is numbered, starting at the northwest corner of the county and proceeding left to right, north to south. This is the first sequence of numbers of the Permanent Number, Lipman said.

The next sequence coincide with the township section number, and the third sequence is the city block or the location of the parcel in the section.

"Permanent block numbers are used to describe

a quarter section in rural areas," Lipman said. "Permanent block numbers are assigned to man-made or physical boundaries in urban areas."

The final number in the sequence is the parcel number, Lipman said. This parcel may be a lot in a subdivision, a consolidation of several lots, a division of a lot, or a metes and bounds parcel.

Lipman stated that any taxpayer confused about the Permanent Number or not sure the Permanent Number on his tax bill may check a copy of the tax maps available in his office or the offices of County Clerk Clara Hartley Woodward, Recorder of Deeds Kenneth George, the Tax Map Office in the Will County Court House or the township assessor's office.

He also said copies of original tax maps may be purchased from the Tax Mapping and Platting Office, Will County Courthouse, Joliet, Illinois (60431).

"We expect some questions to result from this system change, so we hope this forewarning will serve as an explanation," Lipman said. "If any taxpayer has a question about the new system, he is welcome to contact my office, and we will answer his question."

He advises taxpayers to compare the current tax bill with last year's tax bill. If there is a difference in code numbers the taxpayer should contact Lipman's office.

"I advise taxpayers to pay their bills by mail to avoid having to wait in line. We will return the receipts to them by mail," Lipman said.

He added that those wishing to pay their taxes under protest must pay both installments at the same time in his office at the Will County courthouse between July 7 and 17. They must fill out a protest form and take it to the Board of Review.

First installments not paid prior to July 1 and second installments not paid before Sept. 1 will suffer an added one percent per month penalty.

The Will County treasurer's office is open from 9 a.m. to 5 p.m. Monday thru Friday.

(A map showing how the number system is used is on page 4).

More Talk About Airport Location

Richard Beebe, project engineer for the H.W. Lochner Co., which has been studying the proposed Green Garden site for an international airport, is to be the speaker at the dinner meeting of the Frankfort Chamber of Commerce next Wednesday night (May 28) at Prestwick Country Club.

Dinner will be at 6:30 and reservations, accompanied by a check for \$4.95, must be made in advance.

Officers of the Chamber urge all members to attend and bring prospective members with them.

The proposed Green Garden site for a big airport was first advanced by the Kankakee Chamber of Commerce. Later the Joliet Chamber added its blessing, thus being at odds with the Joliet city fathers who were plugging for Homer as the airport site.

None of the area towns have come out loud and clear in favor of any airport in the vicinity. This is only

natural, observers say, pointing out that while a lot of people all agree that airports are useful and it is a fine thing to have them conveniently located, no one in his right mind wants one of the things plumped down in his back or side yard so he gets all the noise. And when the super jets start running and losing super sonic booms it could be even worse.

That is why, it was pointed out, Kankakee would like the airport in the vicinity of Frankfort, and likewise the Joliet Chamber of Commerce.

A talk with residents in this area finds most of them in favor of the Chicago Mayor's plan to build it in Lake Michigan, or are whole heartedly in favor of putting the thing in Indiana. They admit it is a far piece to drive to Chicago or O'Hare on crowded highways but they would rather do that than live next door to a booming airport.

Meteors Score Well In Grade Track Meet

The Mokena grade school track team, the Meteors, won the Eastern Heavyweight Division championship May 14 in competition with New Lenox, Frankfort and Manhattan. The lightweight title was taken by New Lenox with the Mokena team second.

dash; Kurt Rust, 2d in high jump and broad jump. The lightweight 440-relay team of Bill Patterson, Paver, Craig Heim and John Irvin, came in 3d.

On May 12 the Illinois Elementary Schools Association district track meet was held at Joliet West High School. Mokena finished fifth in the heavyweight division and sixth in the lightweight section. Seven schools competed.

Loftus had a 3d in the discus and 3d in the high jump; Moutrey was fifth in the 440, and the relay team of Loftus, Moutrey, Dale Holcomb and Morrow finished in 4th place.

School Board Seeks Bids On Bond Issue

The Frankfort board of education is to meet again next Monday night to consider bids on the \$415,000 construction bond issue approved by the voters in March.

At its regular session May 12 the board discussed the maturity schedule for these bonds at some length and it was decided to retire them over a 13-year period rather than 17 years.

Bond consultants with whom the board members conferred suggested that the shorter retirement period would enable the district to save approximately \$52,000 in interest.

The board and William Scheidmantel, architect, then discussed the drawings for the remodeling to be done at Frankfort School. The architect was authorized to proceed with the working drawings and present them at the

next regular meeting which will be June 9, at 7:30 p.m. in the Frankfort School library.

The board approved the contract of Mrs. Linda Stewart for the 1969-70 school year. She will teach at the primary level. Mrs. Stewart has taught for five years in the Tinley Park grade system.

The board also awarded a contract to Houchen's decorating firm for the painting of the Frankfort School gymnasium ceiling, when it is completed. The ceiling must be replaced to comply with the State Fire Safety Code, it was explained.

The board also accepted Weber Dairy's bid to supply milk for the coming school year. It's bid was .065 per half pint. Beatrice Foods bid was .0655. Dixie Dairy did not bid.

THE LAW SERVES YOU

LAW SETS SOME LIMITS FOR YOUNG JOB HUNTERS

Teen-age summer job hunters will find their pursuit limited by federal and state child labor laws.

These laws, explains the Illinois State Bar Association, affect the kinds of jobs young people may hold and the amount of time they may spend at work. Federal laws apply to all teens under 18 years of age, while state law is applicable only until the age of 16.

The Federal Fair Labor Standards Act states that persons under 18 may not be employed in any of 17 non-agricultural occupations declared hazardous by the Secretary of Labor. For example, a youngster under 18 cannot operate an elevator, even if it's automatic, nor can he drive a motor vehicle as part of his job or be a member of a wrecking crew. Other hazardous occupations include mining, excavating and roofing.

The youngster under 16 will find even more off-limits jobs. Illinois child labor laws provide that he cannot work for a filling station or garage, bowling alley, exhibition park, amusement park or any place where alcoholic beverages are sold for consumption on the premises. Further a girl under 16 cannot hold a job that requires her to stand continuously.

The work week for the person under 16 is limited to eight hours a day for six days, or 48 hours a week. He cannot work between the

hours of 7 p.m. and 7 a.m.

What are some of the jobs youngsters under 16 can hold? They can sell or distribute magazines and newspapers anytime when school is not in session or do housework. And anyone more than 12 years of age can be a caddy at a golf course.

In order to hold most other jobs, an employment certificate issued by the city or county superintendent of schools, or a duly authorized agent, must be obtained.

A youngster must apply in person for an employment certificate. He should be accompanied by a parent or guardian and should bring the following papers:

(1) A statement from his prospective employer describing the nature of the work he will be doing and specifying the exact hours and days of employment.

(2) Evidence of his age, preferably a birth certificate.

(3) A statement from his school principal. This is not necessary if he is to be employed only during school vacations.

(4) A statement of physical fitness signed by a public health or public school physician, who has examined him. If a public health or public school physician is unavailable, a statement from a private physician may be accepted if his examination was made according to Department of Labor standards.

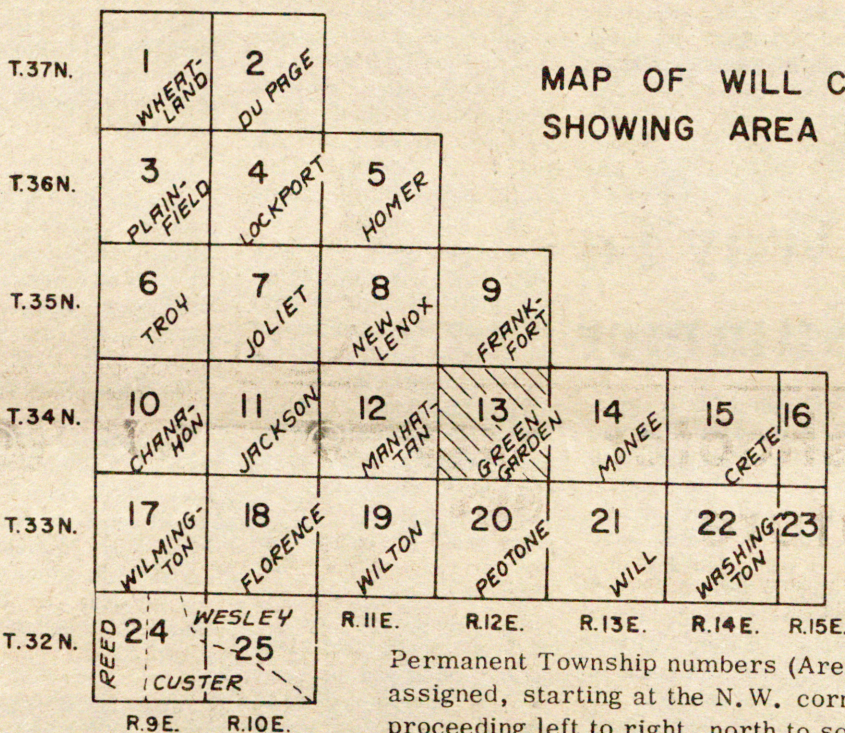

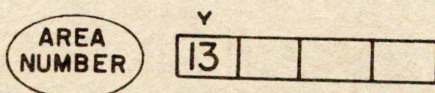

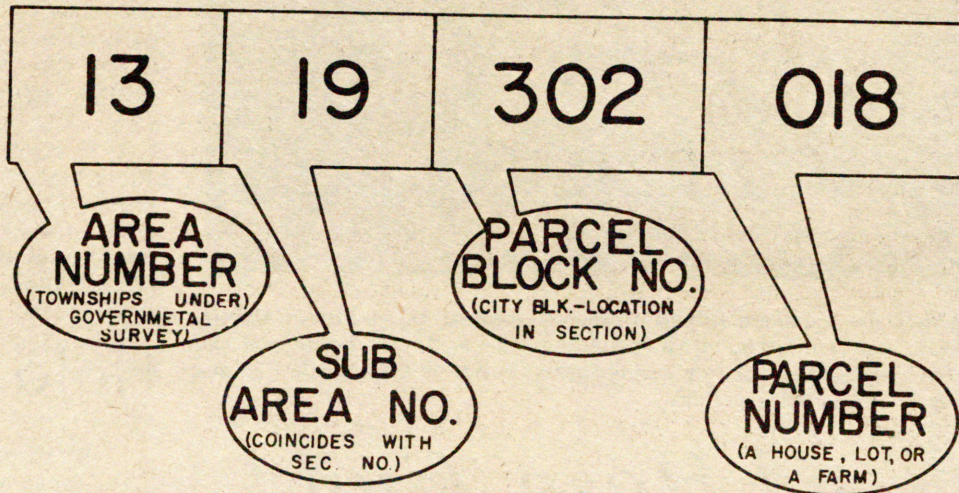

Scout Council Hires Director Of Program

Ward Sisler, president of the Rainbow Boy Scout Council, announces that Gerald P. Albert has been appointed the director of program for this area which includes Will, Grundy and Kankakee counties. Among other duties he will assume is that of camp director for the new scout reservation near Morris, Ill. He has conducted successful camps for five

years in two councils and was the host executive for three national camp schools.

Albert served as district executive in rural and urban districts in Champaign and Quincy, Ill., before going to Indianapolis where he has been the executive of a large multiple man metropolitan district which included both affluent and low economic neighborhoods.

The Permanent Real Estate Index Number

Permanent Township numbers (Area numbers) have been assigned, starting at the N.W. corner of the county and proceeding left to right, north to south, as indicated above.

THE MAP here shows how the county is divided according to area numbers. Each township has a number. The areas are further divided into sub-areas, each township having 36 of them, each being a mile square. In the rural areas a block could be a quarter section and the

parcel number indicate a farm. In subdivided areas the blocks would be that and the parcel number indicate a house or lot. The story on Page 1 tells you how you can get information if the new system is confusing. One thing it will do is knock a lot of words off the tax bills.

Now's The Time To Find Out About Soc. Security

Every month 15 persons in the Will county area sign up late for their Medicare benefits, W.T. James, social security district manager, said today.

Noting that May has been proclaimed Senior Citizens Month by the President James urged Will county residents who are approaching age 65 to celebrate by finding out as much as they can about the Federal health plan for older Americans.

A person should sign up for medical insurance two or three months before he reaches 65, if he wishes coverage of doctor bills to begin in the month he reaches 65, James said. If he waits later, his medical insurance may not begin until one to three months after he signs up, and if he waits more than three months after he reaches 65, he will not have another chance to sign up for a long time-perhaps as much as a year.

For a person who is a social security beneficiary, the basic hospital insurance protection begins automatically with the month of the 65th birthday. One who is not receiving benefits should check with the social security office two or three months before his 65th birthday about his eligibility.

Plan Crop Survey

Many Illinois farmers will be asked to participate in special crop and livestock surveys to be conducted by the Illinois Cooperative Crop Reporting Service in late May and early June. Some of the farmers will be personally interviewed, while others will be contacted by mail or telephone.

These surveys are part of a nationwide effort to provide information needed to estimate planted acreage, livestock numbers, and farm

employment.

State Agricultural Statistician Robert H. Moats said that the locally hired enumerators who will interview farmers are given several days training. They use aerial photographs and county road maps to find the scientifically selected farm units for the survey, and must do a thorough and accurate job.

Accuracy of estimates based on these surveys is very important.

IRWIN P. WOLFINGER, 120 West Maple Lane, New Lenox, received an outstanding performance rating from Col. R. K. Nelson, deputy commander of the Ammunition Procurement and Supply Agency (APSA), Joliet. Wolfinger, director of APSA's maintenance management directorate, received the award for the outstanding quality of his work from January 1968 to January 1969.

using antibiotics, VD has now again reached epidemic proportions.

According to a recent national survey, one youngster

becomes infected every two minutes, 300,000 under 20 became infected last year, and more than 1,500,000 of all ages will become infected this year.

Though VD will hit a greater number of young people in the lower income brackets, no one is immune.

Several factors have contributed to its resurgence. The new permissiveness in sex relations has broken down moral restraint. Young people, lured by the relative safety of "the pill", feel free to indulge in intercourse without the safeguard of male mechanical prophylactics.

Many have learned to treat themselves, so their disease is never reported.

Though syphilis is the more serious of the two diseases, it is gonorrhea which now runs rampant. Since girls quite often show no symptoms at all, it is not discovered until it has spread through their male contacts.

Belief that simple treatment with antibiotics will quickly cure the infection has reduced fear of contact. Unfortunately the antibiotics which at first cured gonorrhea have become ineffective against newly developed strains.

PAIN CONTROL - Injection of ice-cold salt water into the spine at an extremely rapid rate proves to be a

safe and promising way to alleviate and excruciating pain of causalgia, according to Dr. Jack R. Collins of Bethesda Naval Hospital.

DIABETES CLUE? - Dr. B. St. John Brown of Dalhousie University, Canada, reports that there seems to be a correlation between the esophagus and diabetes. A rapidly aging esophagus in young people is usually an indication of diabetes.

ALLERGIES - A new substance called an allergoid that promises to be highly useful in alleviating and even preventing allergic symptoms has been developed by Dr. Lawrence M. Lichtenstein of Johns Hopkins University and two doctors on the West Coast.

DISCOVERY KEY

The career of Ivan Petrovich Pavlov (1849-1936) shows how one science can affect another. Through his research on digestion (physiology), he discovered the conditioned reflex (psychology). He showed that artificial stimulus (a bell) could be substituted for natural stimulus (food) to cause a physiological reaction (salivation).

Riding Peashooter Thing of Future

How can you move great numbers of people relatively short distances very quickly? Why not blow them through a tube?

There are several metropolitan areas that have tremendous transportation problems. Our whole East Coast, for example, is turning into one super-city.

People who want to get quickly from New York to Boston, for example, don't have an easy time of it.

Thus, a lot of money is being spent on developing systems for high-speed ground transportation. One of the more promising is called Project Tube-flight, and it really does involve blowing people through tubes!

The passengers would ride in cars that practically fill the diameter of long tubes. Each car, or series of cars,

would carry a big pump that would suck air from in front of the car and blow it back into the tube behind.

Because of the difference in pressure, the car would zip along through the tube like a pea in a peashooter.

The system has some real advantages: low cost, great safety, and quite a bit of comfort for the passengers. The power requirements seem to be lower than for almost any other system.

So far, people haven't ridden in the Project Tube-flight cars. The 2,000 foot-long experimental model is only 12 inches in diameter, but if everything continues to look good an operational model may be built.

Solve the arithmetic problems to find out about how many miles per hour one early version of Project Tube-flight might reach.

ANSWER: 300 miles per hour.

Invite Boys To Two Seminary Workshops

"What is it like to be a seminarian? could be a question that some of our 6th, 7th and 8th grade boys throughout the diocese might like to have answered.

They will be given this opportunity at two workshops to be held June 15th-20th and June 23rd-27th at St. Charles Borromeo Seminary in Lockport.

The workshops will be under the direction of Father Francis McDonald, Director of Vocations and seminarians from the diocese of Joliet. Any young man from the above grades is eligible, provided he is interested in the priesthood.

During the workshop weeks

the boys will have an opportunity to pray, think, eat, talk, listen, sleep, read, and have recreation. The week is intended to give them a good idea of what it is like to be in the seminary preparing for the priesthood.

It is likewise a time for boys to make new friends with the same ideas and interests as themselves. All in all, the week is intended to give the boys as true and realistic a picture of the seminary and its daily schedule that can be given.

If anyone would desire further information, they may obtain it by contacting Father McDonald at 555 North Lombard Rd. Addison.

Parade Sunday Opens 1969 Baseball Season

Mrs. Edward Hovi
Telephone 479-5740

Well, Sunday's the day! The opening day of the baseball season in Arbury Hills! The festivities will step off at 1 p.m. with the line-up at 12:30 p.m. at the school.

There will be a parade thruout the community, which will begin at the school and end at the baseball field. In addition to the regular floats and marching units, there will be a section for small children to march in with decorated bikes. The small children do not have to register with the committee. They only have to be at the school at 12:30 p.m.

Following the parade there will be the awarding of the winning trophies to those parade units adjudged best in various categories.

After the awarding of the

trophies there will be the first baseball games of the season.

Now, let's all bow our heads and pray for a day of good weather for a nice change. See you Sunday.

The teams have been chosen, and the brave men have volunteered to coach and manage, but there is still a need for three coaches; one for the B Team, the nine through twelve year olds; and two for the Farm Teams, the eight year olds.

The Pony Team, the thirteen and fourteen year olds, has Foster Tekotte as manager and Bob Lindemann as coach; the A Team of nine through twelve year olds, has Bill Kennard as manager and Tony Perritano as coach; one B Team has Edward Vanderveen as manager and Julius Sandy as coach; and

the second B Team has Vern Crowder as manager and no coach; one Farm Team has Jordan Marzano as manager and no coach; and the second Farm Team has Romeo Sanosti as manager and no coach.

If you would have time and the inclination to coach any of the three teams without a coach, please contact Bob Lindemann, the player agent or Jack Kennard, the president. You do not have to have a boy playing baseball in order to be eligible to coach. The time and interest are all that is required.

A committee of interested citizens working on behalf of the Arbury Hills Civic Association has recently approached the Mokena Park District about the problem of a lack of a recreational

area in Arbury Hills.

The Mokena Park District officials agreed that it is a problem, because the children must travel two miles to reach the Mokena Park and have to cross a sixty-five mile an hour highway.

The officials are in the process of looking into a park site in the Arbury Hills area. Anyone interested in a

park in the Arbury Hills area is invited to attend the Mokena Park District meetings on the fourth Monday of each month.

-o-

The Cub Scout Pack meeting will be held at the school this Friday evening, May 23, beginning at 7:30 p.m. The change in date is due to the upcoming holiday on the last

Friday of the month. This is a one time change only.

The Arbury Hills Civic Association membership meeting for the election of the officers for the coming year will be held at the school on next Tuesday evening, May 27 beginning at 8 p.m. All paid-up members are eligible to vote in the election. Come on over.

**To the thousands of homeowners
who will be installing electric
central home air conditioning
this year...**

**here's how to enjoy spring
all year'round.**

Electric central air conditioning combined with an efficient electric furnace offers year-round "total comfort." Total comfort assures you the worry-free convenience of a constant indoor temperature any time of day or year, regardless of the weather outside.

Spring-like total comfort doesn't have a big price tag, either. It's easy and inexpensive to convert to an electric furnace at the same time you install Electric central home air conditioning. And, operating costs are probably a great deal lower than you've been led to believe. In fact, with electricity you can heat an average six-room house for about \$200 a year.

Consider the advantages of year-round total comfort the Electric way. Get all the facts by filling out and sending in the coupon below. Or call our nearest office and ask for Tom Rogers. He'll answer any questions you have about converting to electric heat, including a free estimate on installation and operating costs.

Open Letter from the HIRSCHS'

Dear friends,

Mrs. John R. White of Honolulu wrote the editor of the Richmond, Va. newspaper, asking that someone please place a flower or two on her baby's grave in Riverview Cemetery on Memorial Day. The baby was buried in 1947; in 1950 the Whites moved to Hawaii.

On Memorial Day, 40 persons visited the tiny grave; it was covered with 22 bouquets of flowers - one a bouquet of red roses in a child's yellow sand bucket.

Such is America.

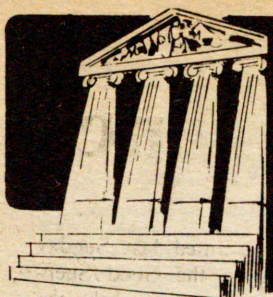

Respectfully,

John R. Hirsch
